### Short Description

The collar weight wraps around the horse's neck.

The collar comes empty and you can measure, weigh and fill the pockets with sand via the velcro opening at the top.

Each pocket will hold a maximum of 1.5kg. (or customized to your horse)

The total maximum weight is 3kg.

Ideal for small horses and ponies.

(Made to order for your horse for a maximum and minimum weight)

Plus Postage in Australia

### Description

The Collar weight is ideal for small horses and ponies to do strength training with.

The Collar will be posted empty.

You can weigh sand and funnel it into each pocket making sure the weight is

symmetrical.

Start with about 250g in each pocket and slowly build the weight in intervals.

The training is done at the walk ONLY. You must have one day with no weight training.

You can lead your horse and work in hand or lunge or even ride with the neck collar on.(  
At the WALK ONLY )

Do not do any "on the bit work" while wearing the collar.

Start with 20mins 5 days a week.

Monitor your horses' reactions.

Any head tossing or avoiding the weight by holding their head too low are signs of stress or discomfort.

Increase the weight every 3-4 weeks
